A NOTE FROM THE DESIGNER

4+ YEARS EXPERIENCE

REAL. DRIVEN. Down to earth.

I'm an instructional designer and content strategist who transforms complex ideas into engaging, accessible learning experiences that stick — and drive measurable business results.

My work sits at the intersection of adult learning theory, ADDIE methodology, and creative design. I've built certification programs for wellness professionals, redesigned enterprise onboarding, and shaped brand voices across SaaS, spa, beauty, and B2B — always in service of the learner and the outcome.

Based in Madisonville, Kentucky. Mom. Creative. Tattooed. Caffeinated. I show up as a whole person — and that energy goes into every project I take on.

THE MANIFESTO

Learning design that treats adults like adults. Content that respects the reader's time. Visuals that carry the weight of the words.

Every project in this volume was built to move a measurable needle — completion rates, engagement, brand recall, behavior change. I don't design decks. I design the outcomes.

ONLINE COURSE DESIGN

SCORM-compliant certification.

A comprehensive SCORM-compliant certification built for 1,000+ wellness professionals. Modular curriculum with branching scenarios, knowledge checks, and interactive assessments — designed to hold attention and change behavior on the job.

I led course architecture end-to-end: needs analysis, learner personas, storyboards, visual system, and LMS deployment. The result: measurably stickier training that hit its ROI target inside six months.

BRAND & PRODUCT TRAINING

02

MOOR SPA PRODUCT TRAINING

Ritual, protocol & retail.

Branded product training for spa professionals — step-by-step treatment protocols, ingredient stories, and retail conversation guides packaged into a cohesive on-brand training system.

Technical accuracy without losing the sensorial, spa-brand voice. Every asset works equally hard behind the treatment bed and at the front desk.

ROLE	Content Designer · Layout & Copy

BRAND & PRODUCT TRAINING 03

CND PLEXIGEL

Visual protocols, on brand.

Professional training guides for CND's Plexigel product line — step-by-step visual protocols developed for licensed nail technicians. Clear, technically precise, and visually engaging without ever compromising the CND brand system.

Visual hierarchy tuned so a technician can scan the protocol from the workstation in under five seconds — critical for a product that lives or dies by application accuracy.

UC LEARNING PLATFORM

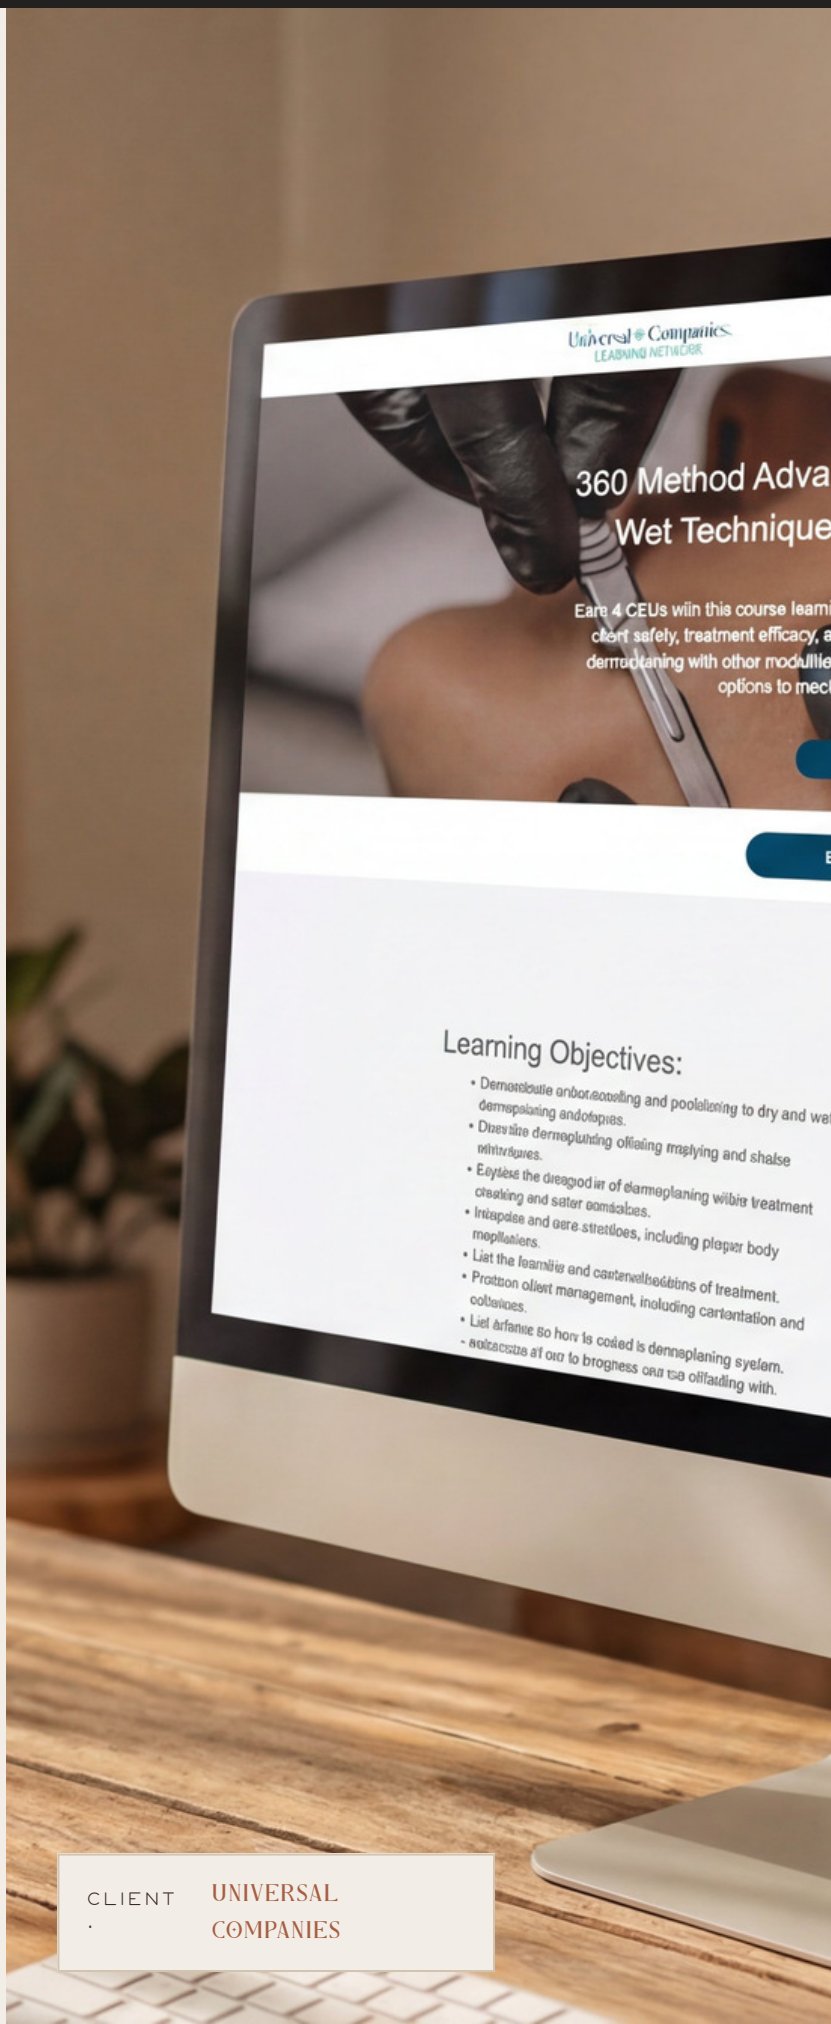

Rebuilt for how adults learn.

Redesigned the core eLearning modules on Universal Companies' learning platform using adult learning principles, evidence-based instructional design, and a fresh visual system. Old material was information-heavy and passive; new modules are chunked, active, and outcome-focused.

Post-launch, completion rates jumped 35% and learner satisfaction climbed sharply. The redesign became the template for future Universal Companies course production.

SAFER MOBILITY

Campus safety, humanized.

Marketing collateral and content strategy for SaferMobility — a campus safety app deployed at universities nationwide. My work spanned brand voice, campaign copy, and multi-channel marketing aimed at administrators and end-user students.

The strategic challenge: two audiences with radically different vocabularies. I built a modular content system that speaks to both without diluting either.

STAY. FIGHT. OVERCOME.

A campaign about resilience.

A creative content campaign centered on resilience and mental-health awareness — a passion project turned community initiative. I developed brand identity, visual language, and content strategy end-to-end.

Every asset had to be shareable, dignified, and useful. The system works equally hard as a t-shirt graphic, a social post, and a hospital-bed reminder card.

MULTI-PLATFORM CAMPAIGNS 07

One voice, every channel.

Cohesive multi-platform campaigns across social, email, digital display, and web. Visual assets and copy engineered to feel native on each channel while carrying the same strategic message end-to-end.

I run these as a one-woman studio: strategy brief → art direction → copy → asset production → analytics. Recent campaigns have driven measurable engagement lifts across the funnel.

THE BUSY MOM BIBLE

Real life. Real systems.

A creative content project and digital resource guide for working moms — my own personal brand playground turned publishing platform. Complete brand identity, content strategy, editorial system, and visual design.

Built on the belief that "busy" isn't a personality — it's a systems problem. Every piece of content is designed to save a mom twelve minutes and make her feel seen.

SKILLS & *craft*

Four practice areas — grounded in learning science, sharpened by four-plus years of doing the actual work.

01 · INSTRUCTIONAL DESIGN

THE LEARNING SCIENCE LAYER

ADDIE methodology, curriculum design, learning objectives, assessment design, storyboarding, needs analysis, evaluation strategy — the invisible architecture behind every course.

ADDIE · CURRICULUM · STORYBOARDING · ASSESSMENT · BLOOM'S · KIRKPATRICK

02 · ELEARNING PLATFORMS

WHERE THE LEARNING LIVES

Full production stack for interactive, SCORM-compliant courses that ship on any modern LMS — from rapid Rise builds to complex Storyline branching scenarios.

STORYLINE · RISE · LECTORA · CAPTIVATE · SCORM · MOODLE · CANVAS

03 · DESIGN & CREATIVE

THE VISUAL LAYER

Full Adobe fluency, Figma for interface work, Canva for high-velocity content. Grounded in typography, color theory, and editorial layout.

PHOTOSHOP · ILLUSTRATOR · INDESIGN · FIGMA · CANVA · BRANDING · UX / UI

04 · CONTENT & STRATEGY

WORDS THAT DO THE WORK

Content strategy, UX writing, brand storytelling, and long-form copywriting. Every piece of copy is a decision about what the reader should feel, think, and do next.
